MARCUS MARSZALEK

Graduate IT Developer

EDUCATION

BSc (Hons) in Digital Media Development

University of Winchester, England

Using a variety of programming languages and techniques, I have created websites, databases, and applications using *HTML/CSS, JavaScript, SQL, Node.js, Python, Solidity*, and more. From using APIs in analytical cyber security algorithms to experimenting with web3 technologies and applications such as metamask configuration, truffle suite, and ganache blockchain testing.

My interest and passion for new technologies is exemplified by the achievement of a 1st class in my dissertation on blockchain technology capabilities and cryptocurrencies, and represents my determined ambition to enter a career in business IT/Computing or economics. Having worked with real life clients at university, often in an agile work environment, I have gained invaluable skills regarding working to deadlines, building rapport, and establishing myself as a reliable individual, who acknowledges client satisfaction to be of paramount importance.

Achieved: 2 : 1

PROFILE

A Digital Media Development graduate from the University of Winchester, who is passionate about coding practices and techniques, as well as learning and adapting to new programs and software.

A well organised and reliable individual, with strong motivation and a positive and supportive work ethic.

Displays good-humour, performing calmly under pressure, eager to advance their career.

Religious Education	- B
History	- D

EXPERIENCE

Student Services Academic Skills Tutor

University of Winchester   (September 2021 – May 2022)

I was employed as an academic support tutor by the University. My role focussed on supporting student academics through one-to-one sessions. In these sessions, I analysed and assisted with work they may have, teaching students on academic skills and techniques to enhance their academic potential. I met with mentees one-to-one on a weekly basis, giving guidance on time-management, writing skills, and how to get the most out of academic study.

Cross Trained Delivery Driver

Dominos Winchester North   *(February 2021 – July 2022)*

I was trusted with ensuring the store has sufficient resources as well as taking orders from customers, going on deliveries, and assisting with general instore maintenance responsibilities. I received training in GDPR, food hygiene, health and safety, and customer service.

Cross Trained Delivery Driver

Dominos Stourport   *(April – September 2020)*

I was trusted with assisting the maintenance of the store and going out on deliveries. I received training in GDPR, food hygiene, health and safety, and customer service.

Store Assistant

GO Outdoors Kidderminster   *(April - September 2019)*

I was given responsibilities important to maintaining an organised store. I assisted customers and replenished stock, assuming responsibility for replenishment of products and helping management of deliveries.

ADDITIONAL INFORMATION

I own a car, so I can travel to the job location. I am willing to **relocate for the job role**.

I have a website with some personal projects:

http://marcusmarszalek.winchesterdigital.co.uk/

StoneyTigersClub NFT

I am one of the primary creators of StoneyTigersClub NFT, a digital asset collection scheduled for launch at the beginning of September. I work closely with a talented team of ambitious young people, marketing the release. I am a primary developer, programming solidity smart contracts, working with the Ethereum network and Web3 for debugging, deployment, and compiling.

See our website for more details:
